PREFATORY NOTE

The *READERS' GUIDE TO PERIODICAL LITERATURE* is a cumulative author subject index to periodicals of general interest published in the United States.

The main body of the Index consists of subject and author entries to periodical articles arranged in one alphabet. In addition there is an author listing of citations to book reviews following the main body of the Index.

The Committee on Wilson Indexes of the American Library Association's Reference and Adult Services Division advises the publisher on indexing and editorial policy by means of in-depth contents studies conducted at intervals of several years.

While the responsibility for all indexing and editorial decisions rests with The H. W. Wilson Company, every effort is made by the Company to follow the recommendations of the Committee and the subscribers to a given periodical index.

Suggestions for addition or deletion of titles should be brought to the attention of The H. W. Wilson Company, 950 University Avenue, Bronx, N.Y. 10452

This volume of *Readers' Guide to Periodical Literature* has been produced by The H.W. Wilson Company's computerized bibliographic system.
